

## For users who are intensely involved in data entry

The compact Goldtouch numeric keyboard is a separate numeric part, suited for left-handed and right-handed users.

This numeric keyboard is a separate addition for compact keyboards that lack a numeric pad.'

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241) and contribute to increased productivity (Snyder, 1990).

**Comes with 22 Keys:** included Escape, Backspace and Tab.

**Other often used symbols:** : , ( ) % \$ Y L E c.

**Extra:** 2 USB ports (left and right).

**Black:** also available in black.
